# How to create your own personalized signature
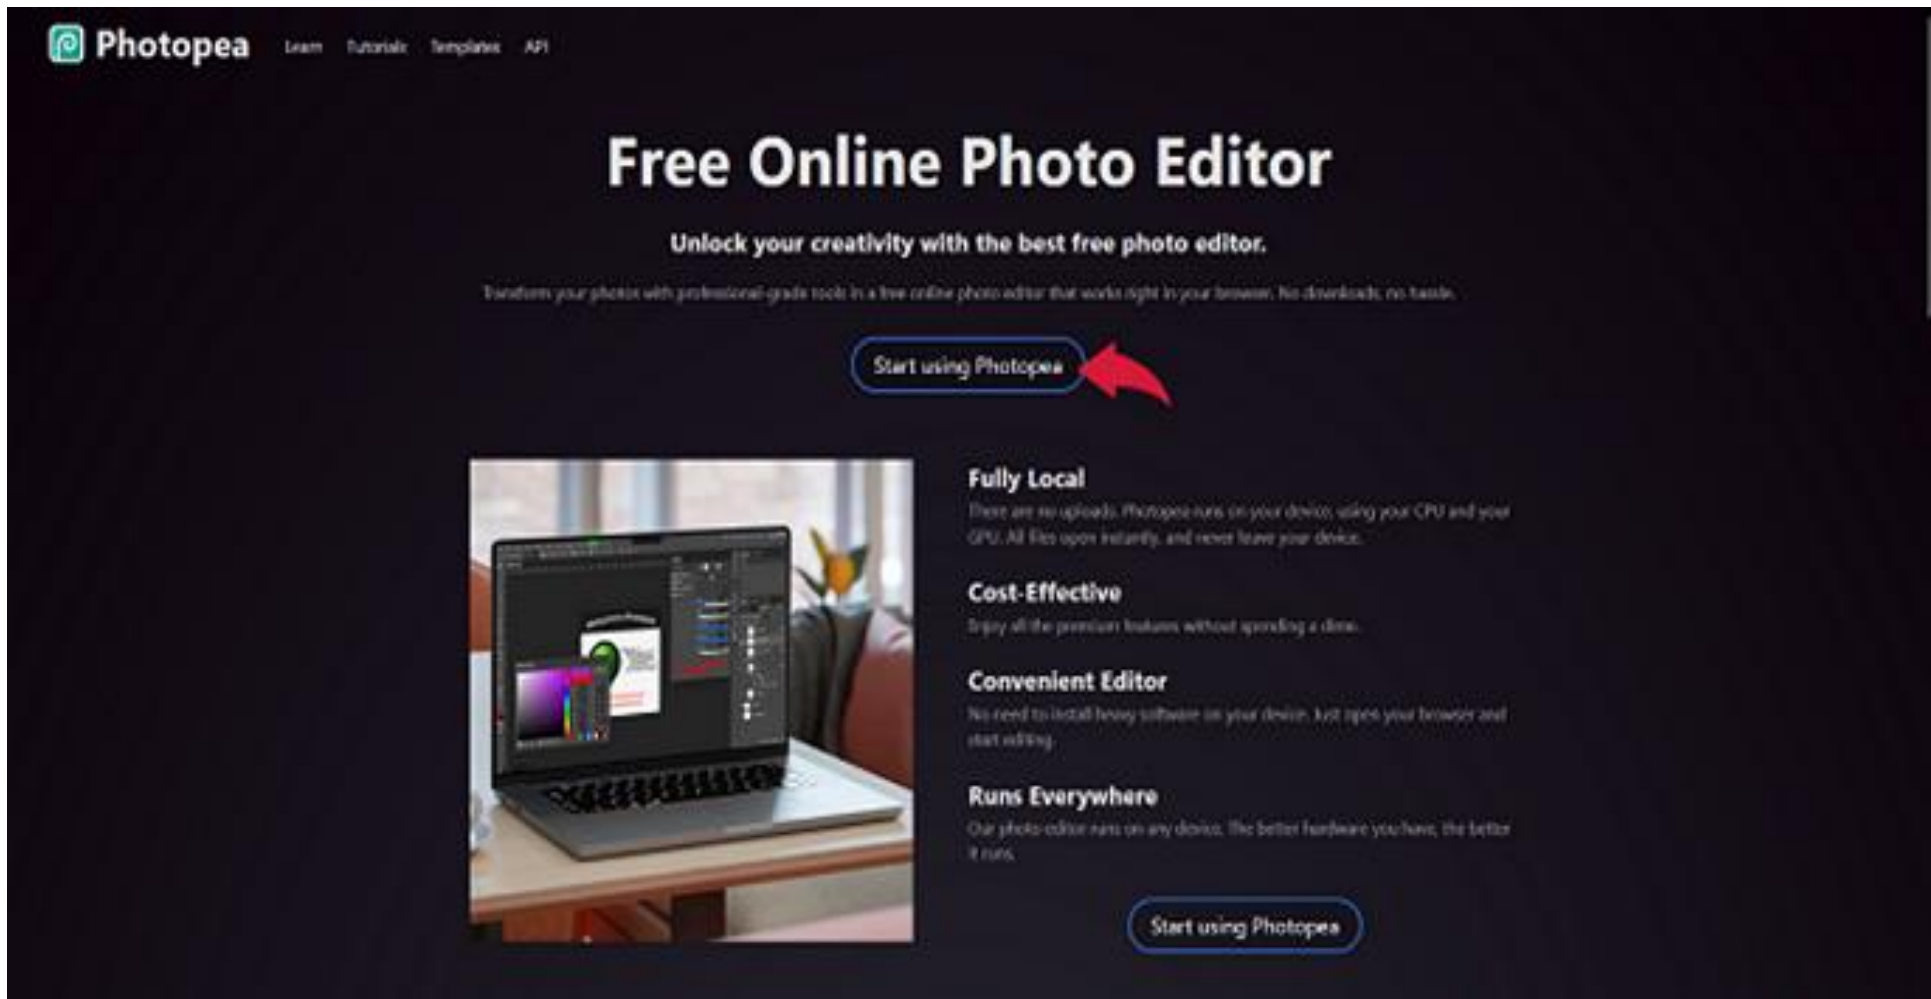

You will be using Photopea on your computer, https://www.photopea.com, or on mobile upload the Photopea app. Open your Photopea app on mobile or on PC type in the URL link. Click on the 'Start using Photopea' button. Save the 2 animations.
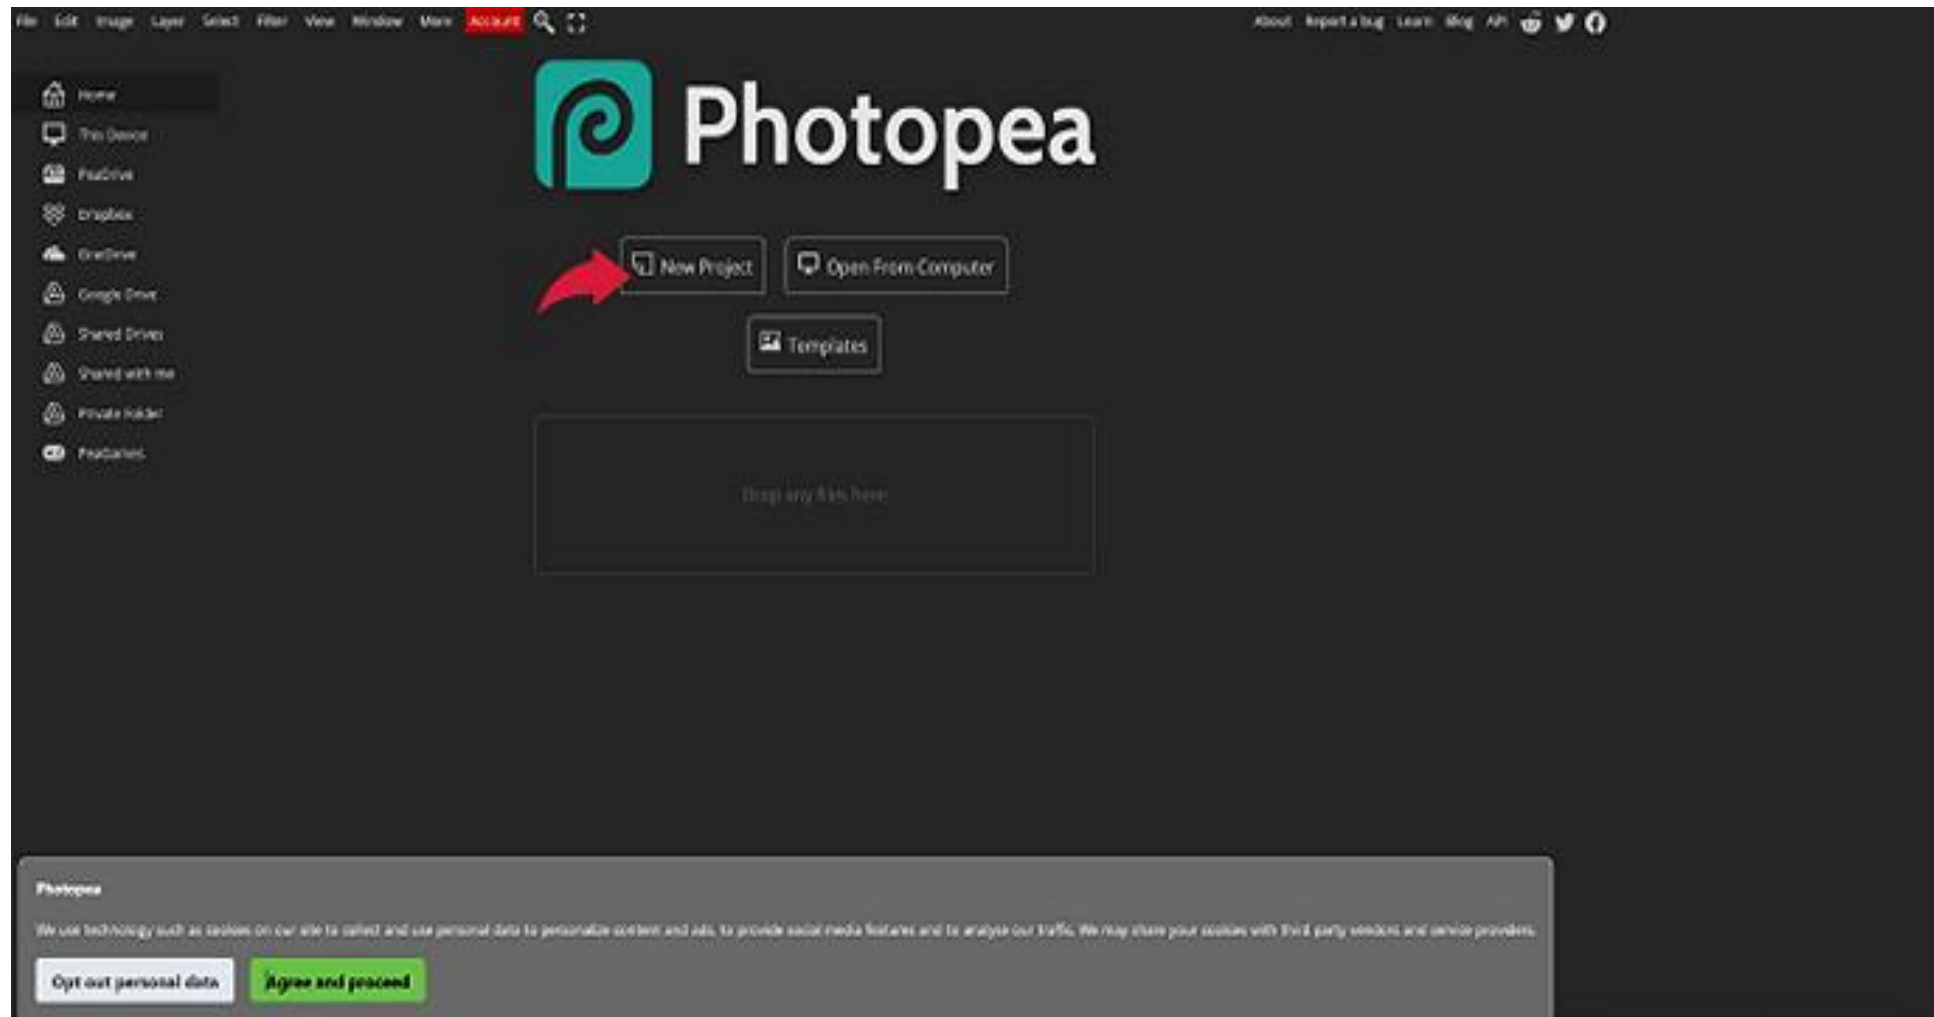

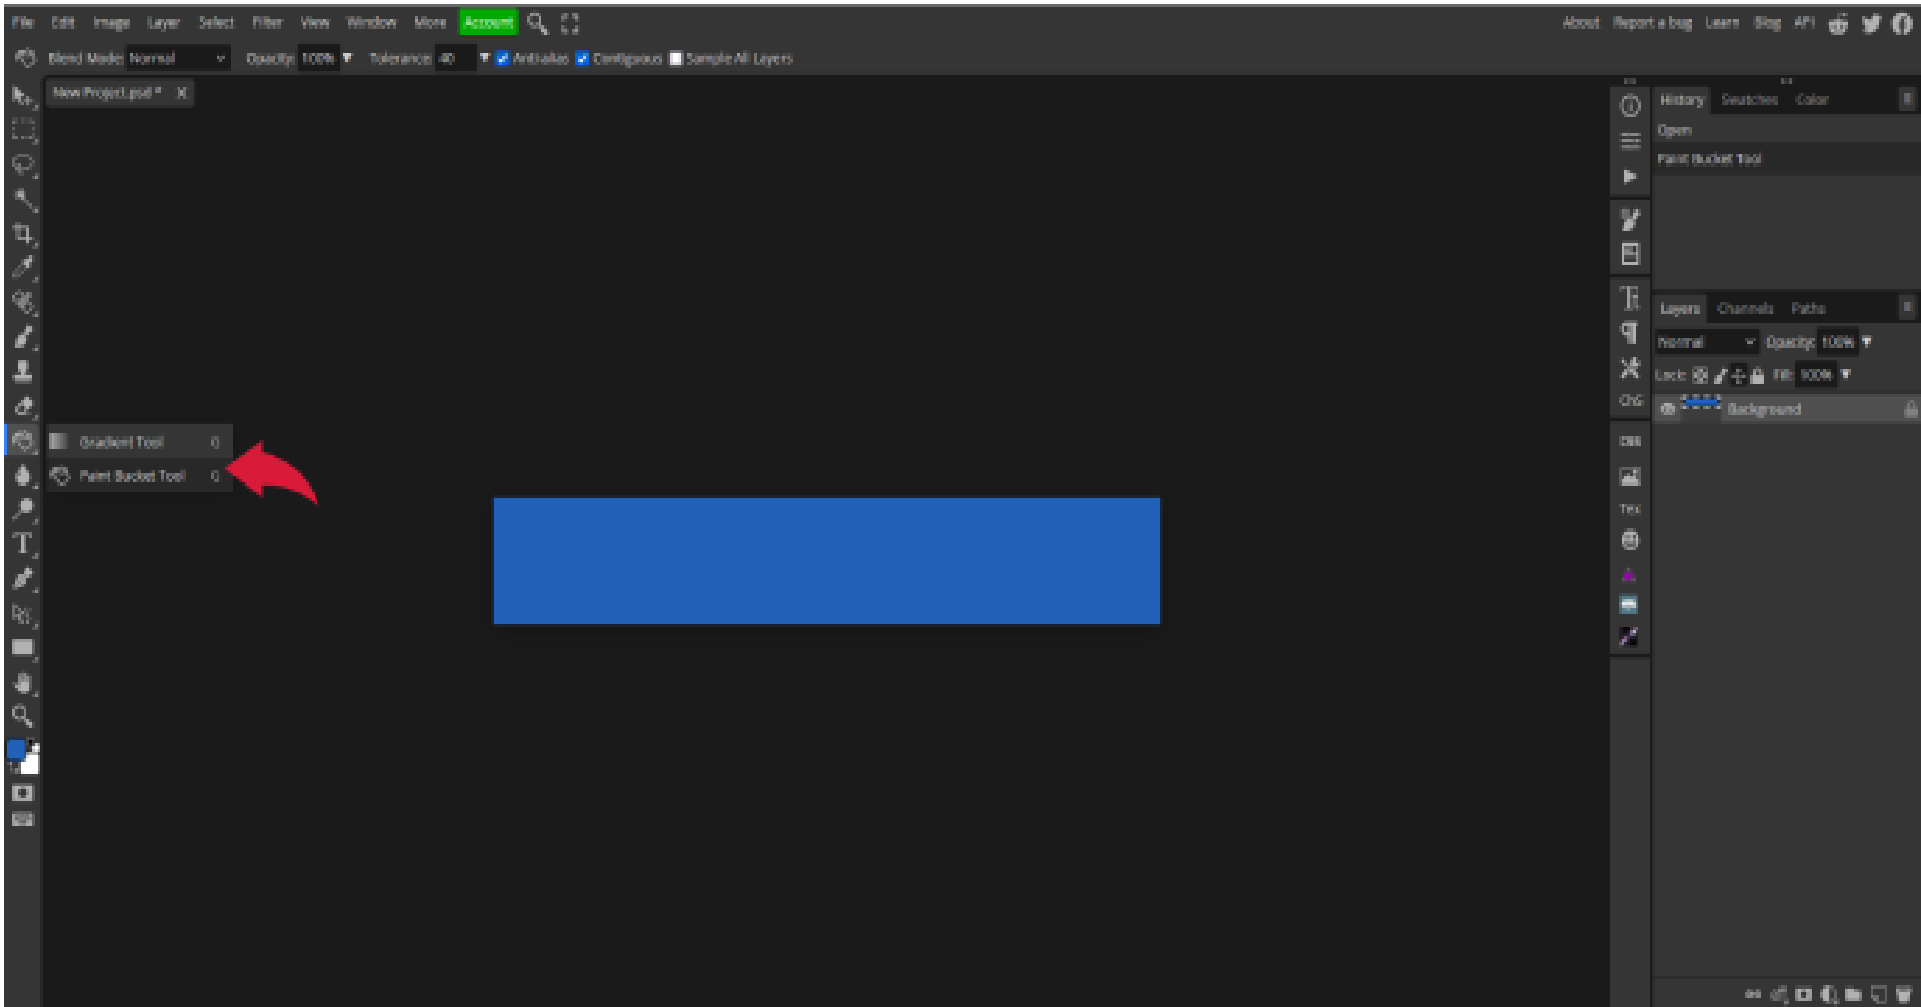

Step 1: Click on 'New Project'.

Step 2: Change the width to 668 and the height to 116 pixels. Click on the background arrow and choose transparent. Click on the 'Create' button.
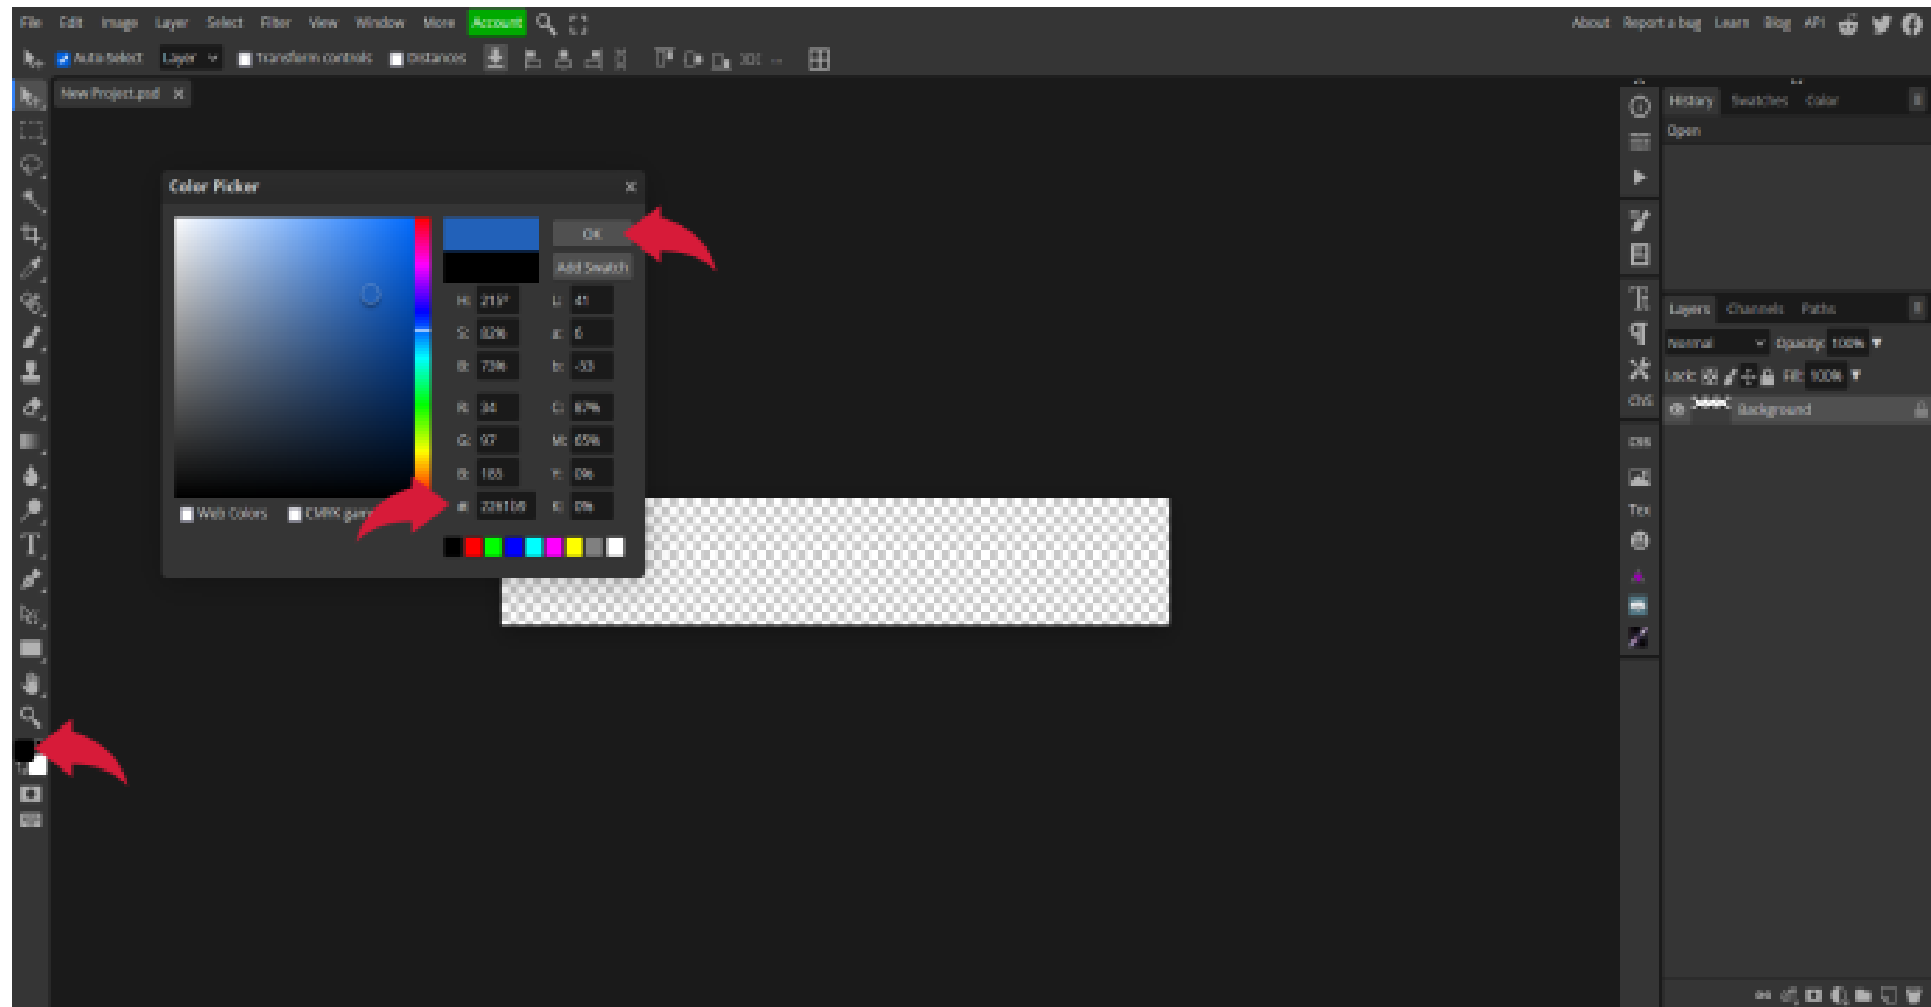

Step 3: click on the color icon on the left side. From the pop-up box type in the HTML color code '2261b9'. Click on the 'OK' button.

Step 4: Click on the gradient/paint bucket tool and choose the paint bucket. Click on the rectangle and it should paint the background in the blue color.
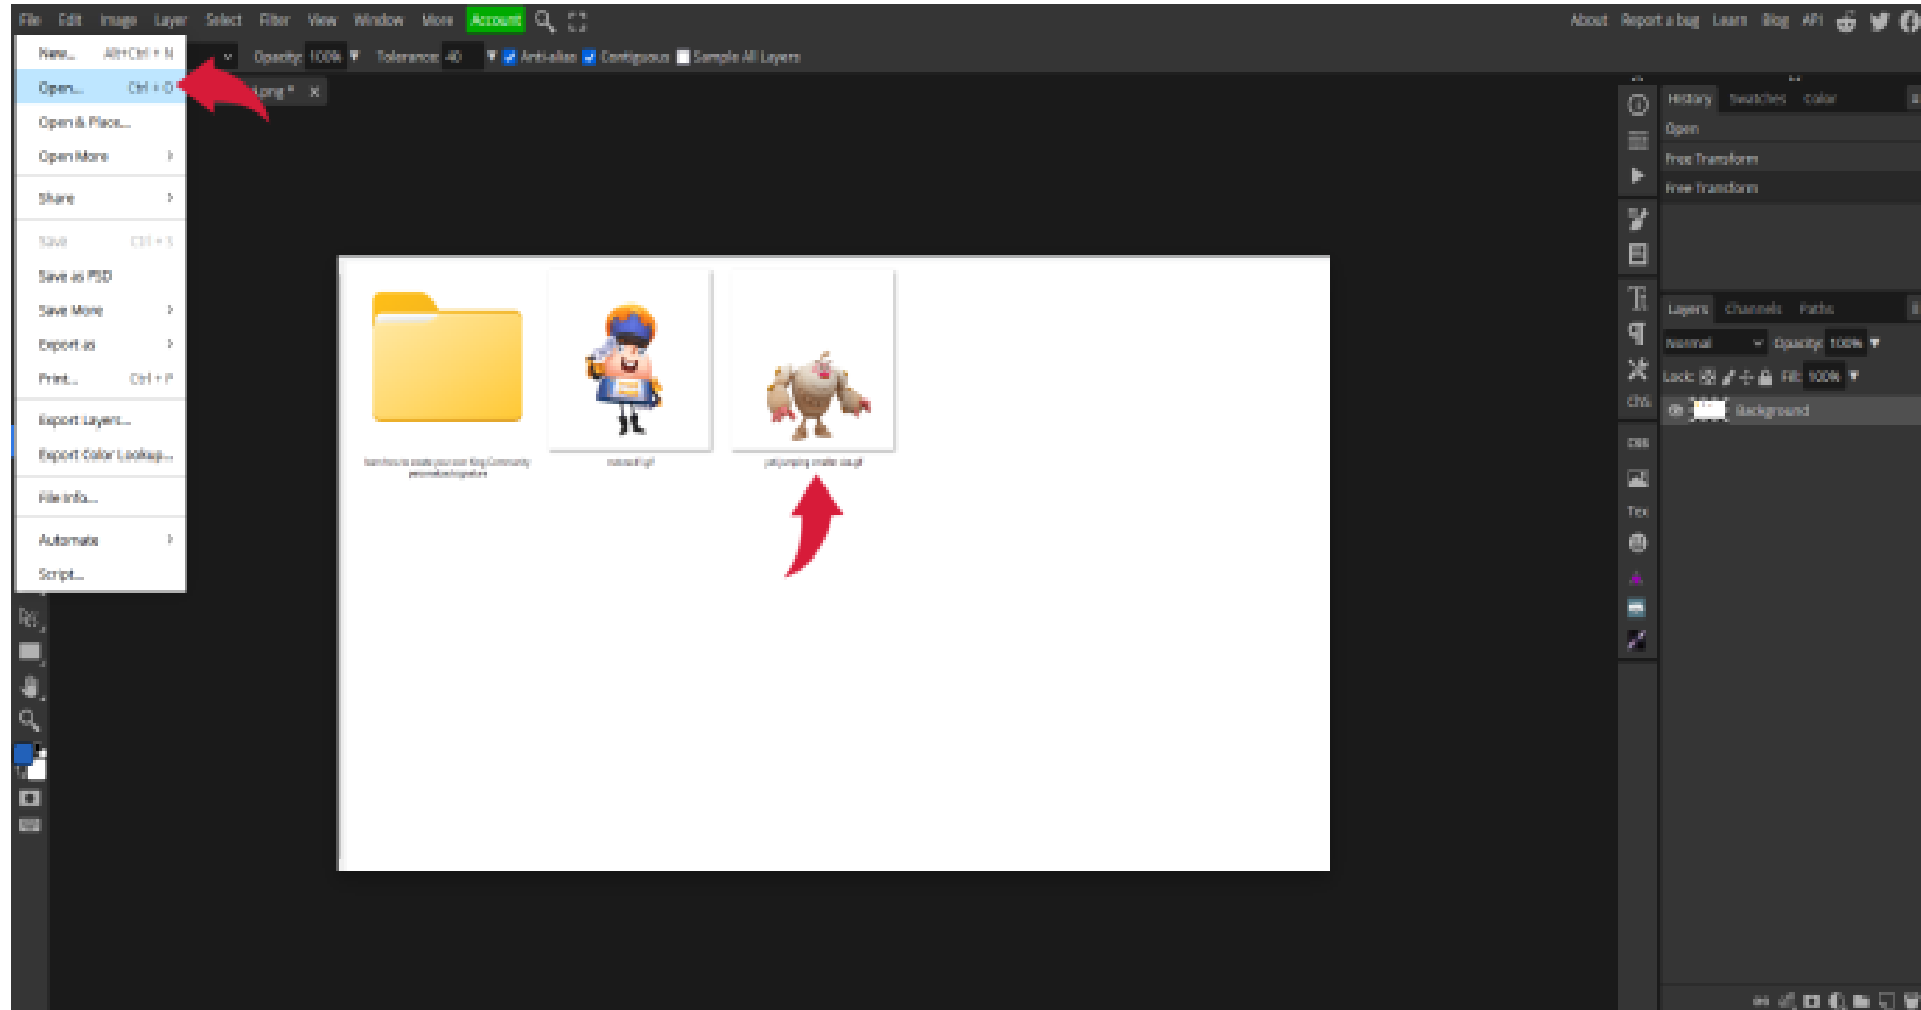

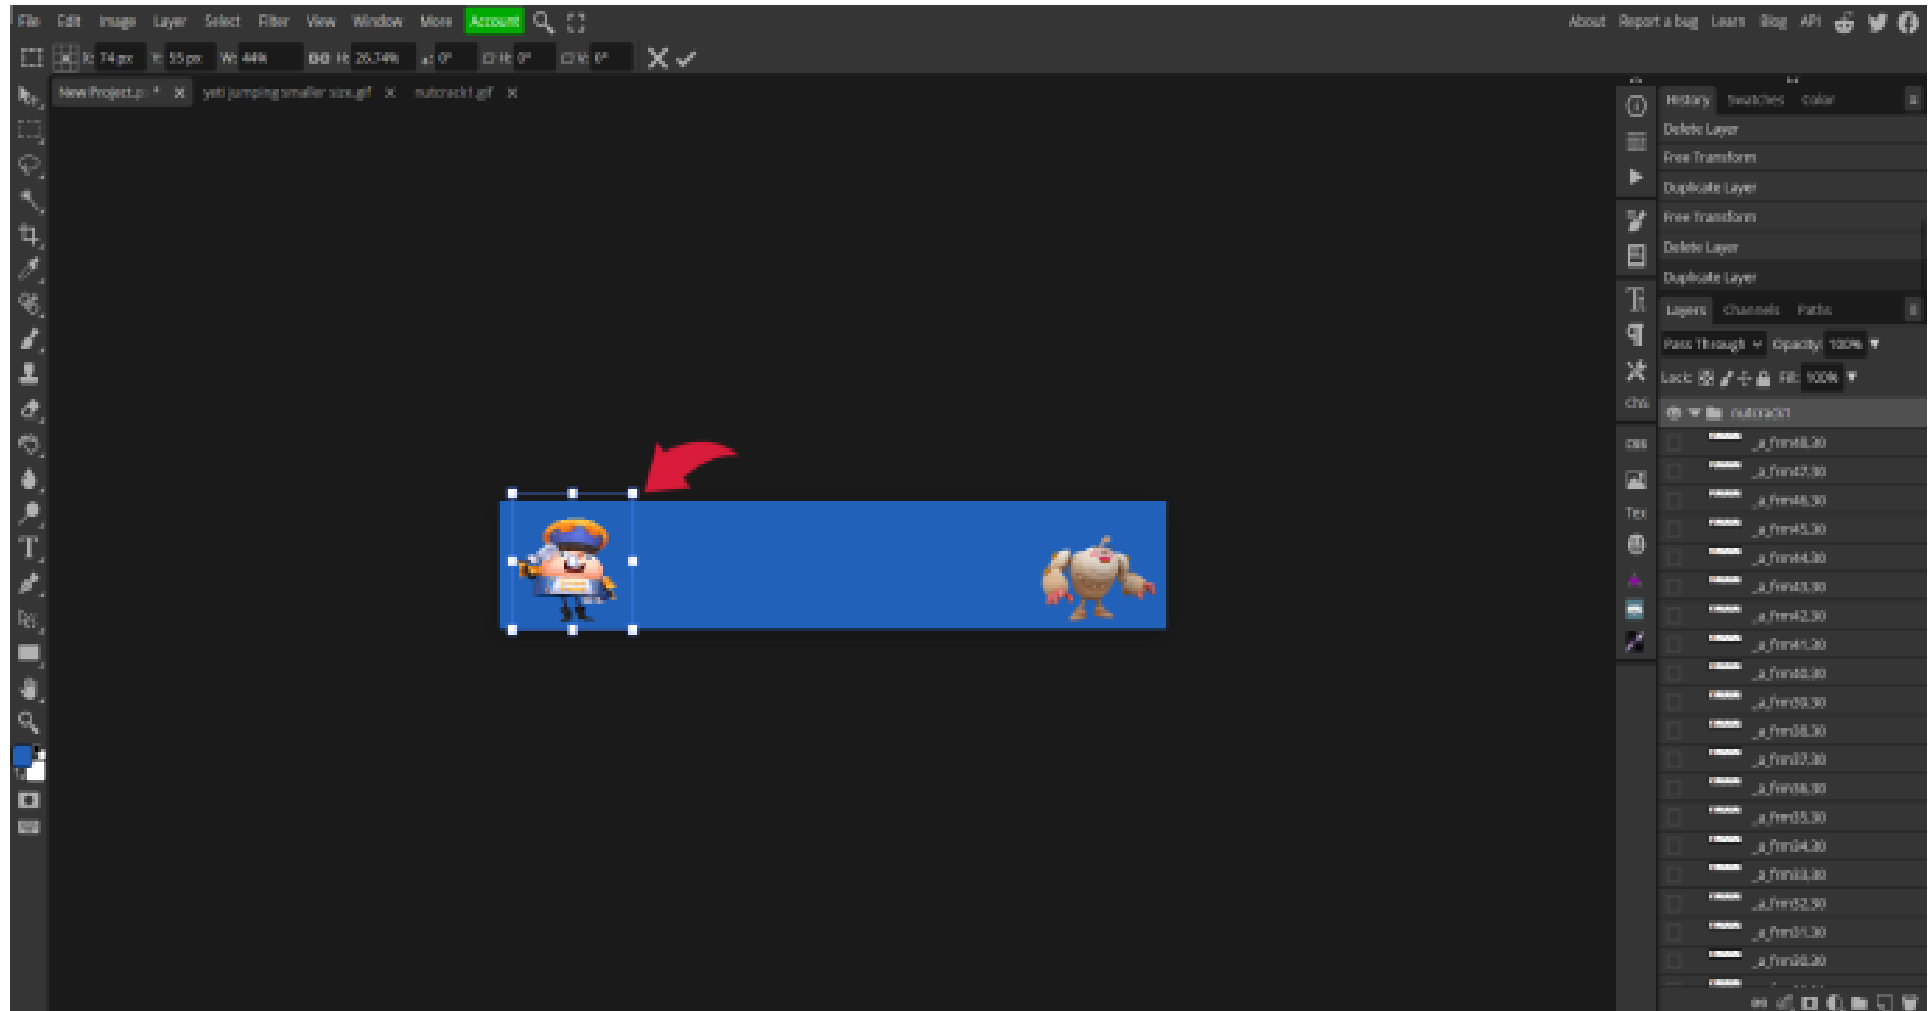

Step 5: Upload the first animation – Click on the 'File' tab on top and then click on the 'Open'. It should open to where you saved the animations. Click on the Yeti animation.
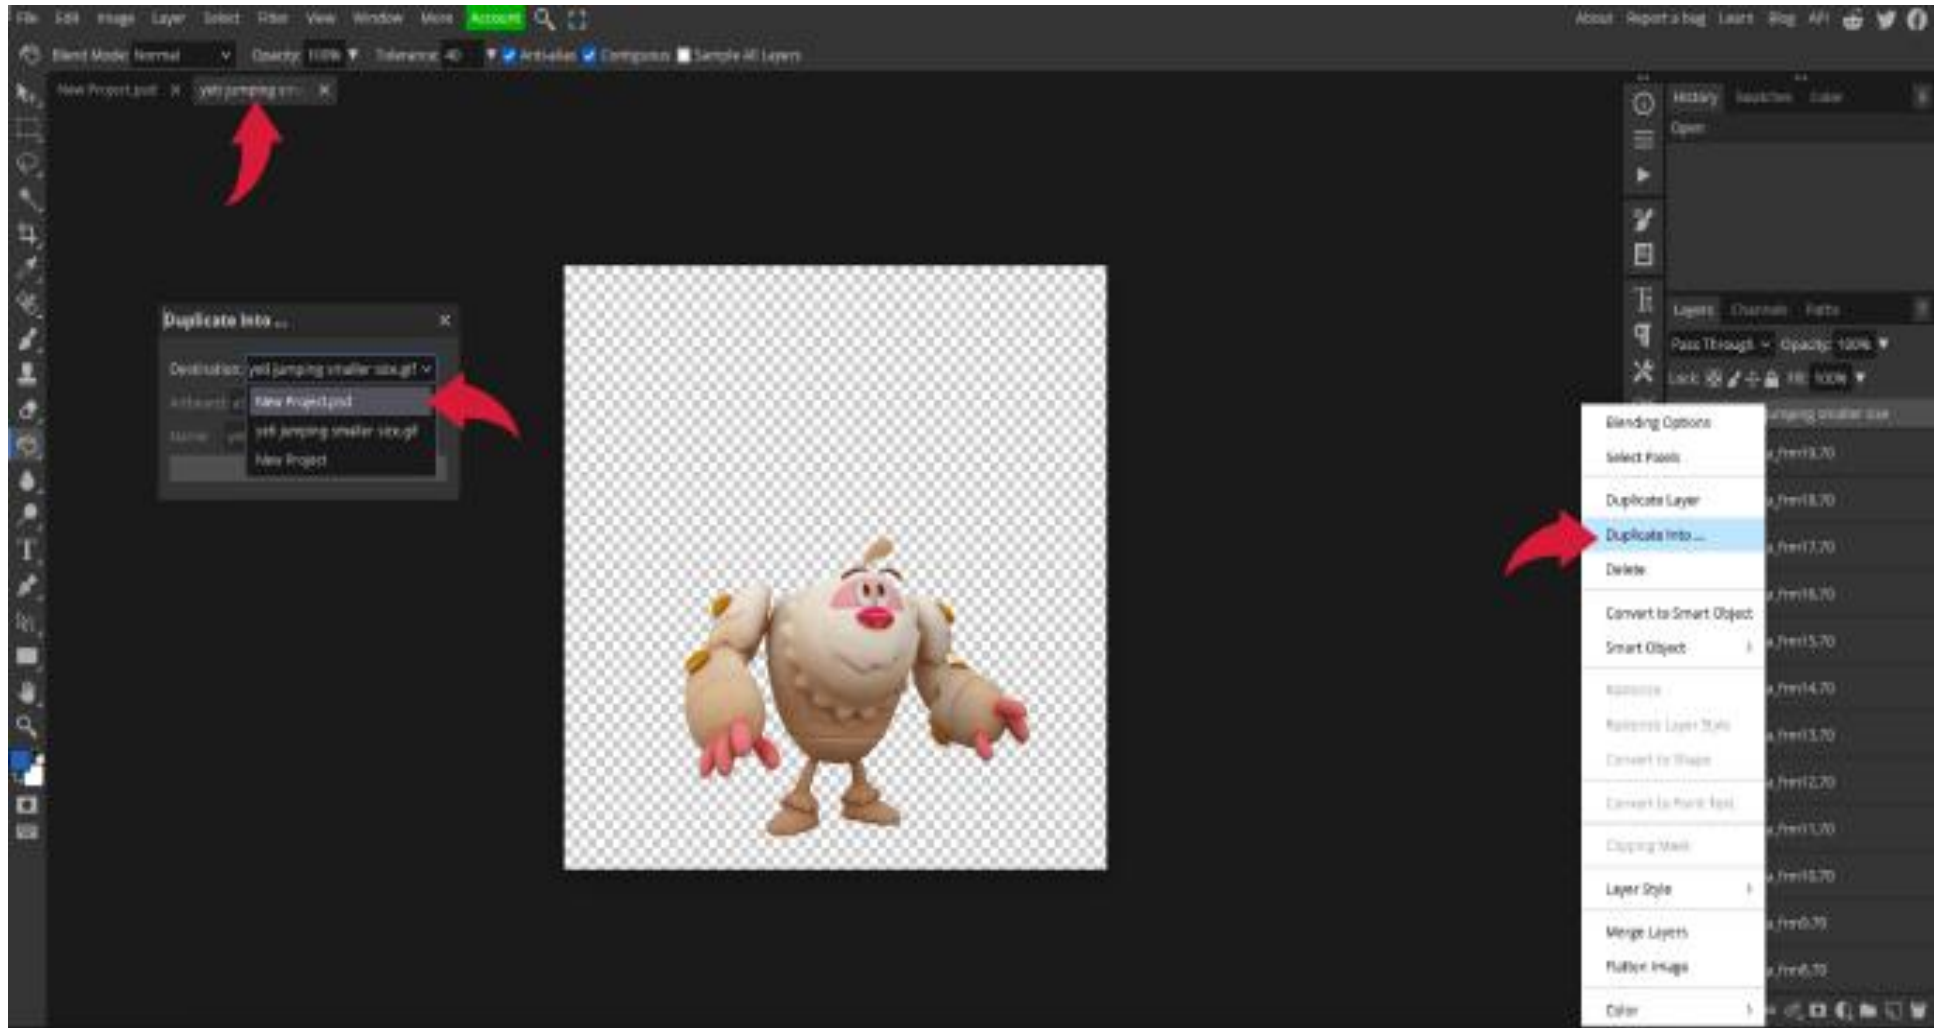

Step 6: Make sure that you are on the animated image (Yeti) and on the layer tab on the right, right click on the layer and click on 'Duplicate Into'. On mobile, click on the 'Layer' tab on top and click on 'Duplicate Into'. From the drop down click on the 'New Project' and then click on the 'OK' button.
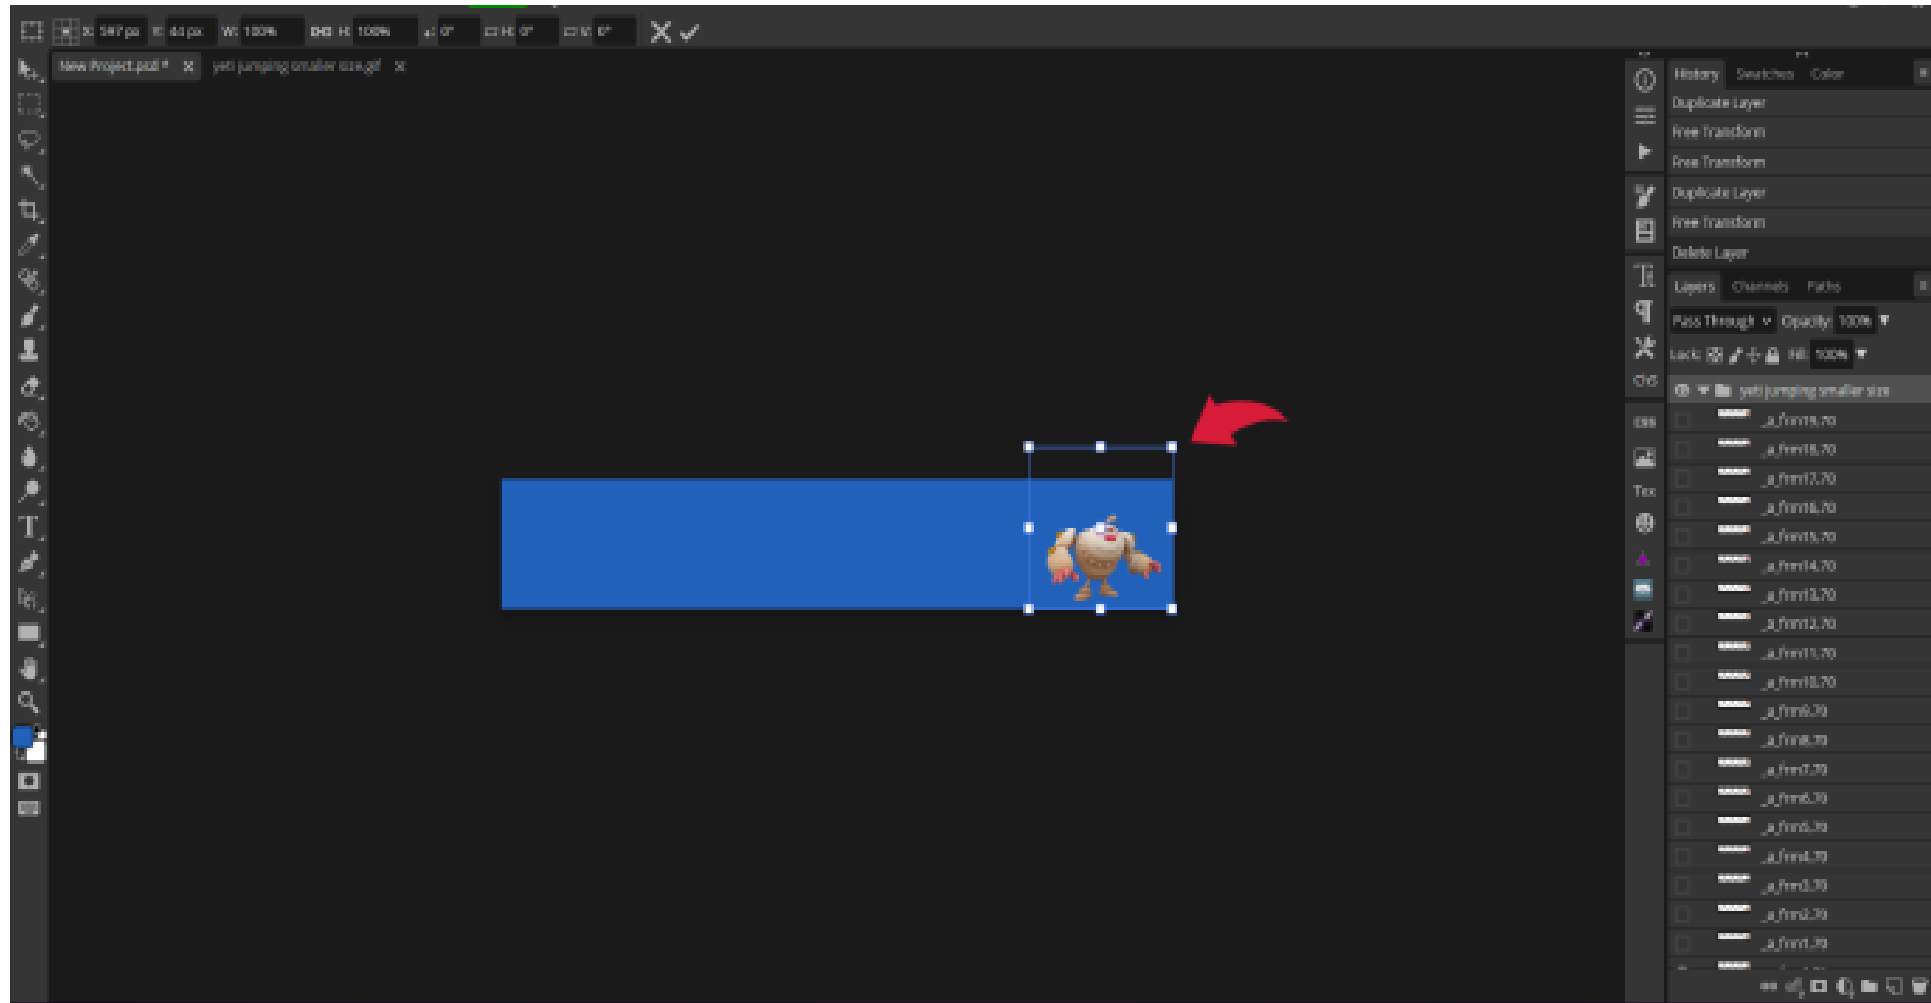

Step 7: Hold down CTRL + ALT + T on keyboard. On mobile, click on 'Edit' tab on top and then click on 'Free Transform'. A rectangle will now appear, click on a corner and drag it down to fit in the space. Then move it into position.
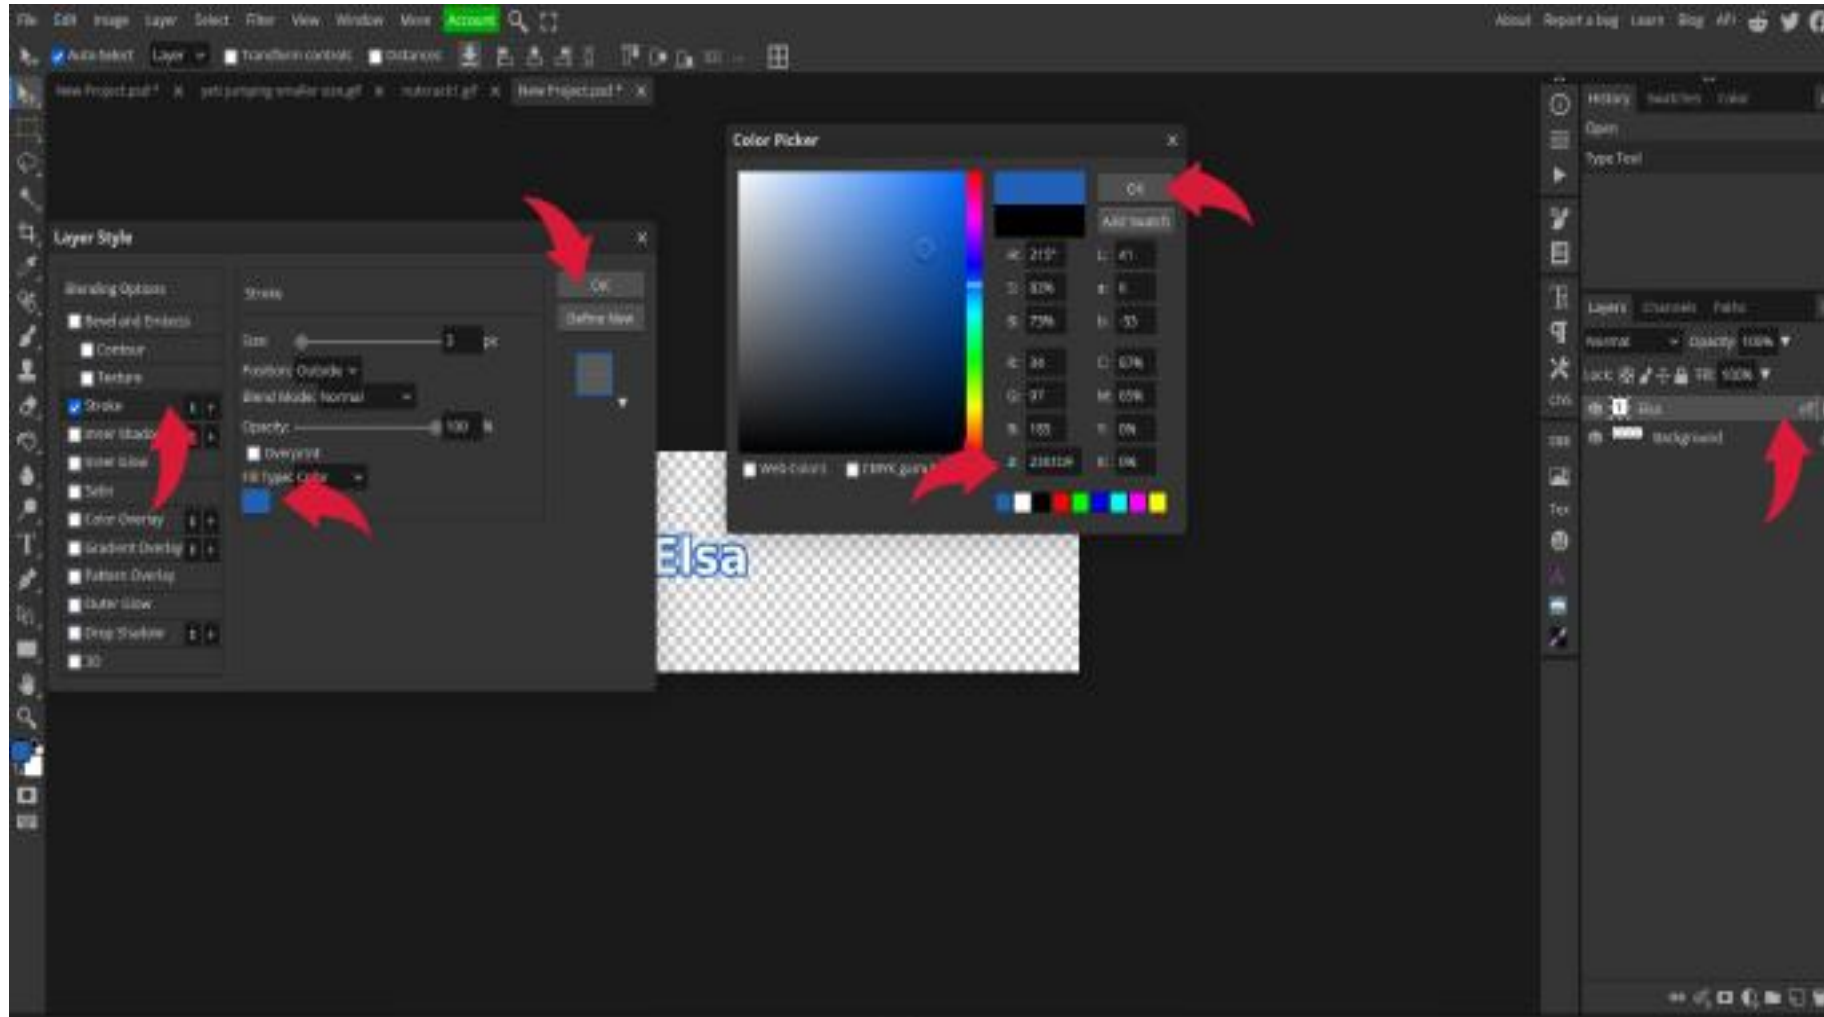

Step 5: Upload Nutcracker animation. On the layer tab on the right, right click on the level and from the drop-down click on 'Duplicate Into ...' . On mobile, click on the 'Layer' tab and then the "Duplicate Into ....". Choose 'New Project' from the drop-down menu and click on the 'OK' button.
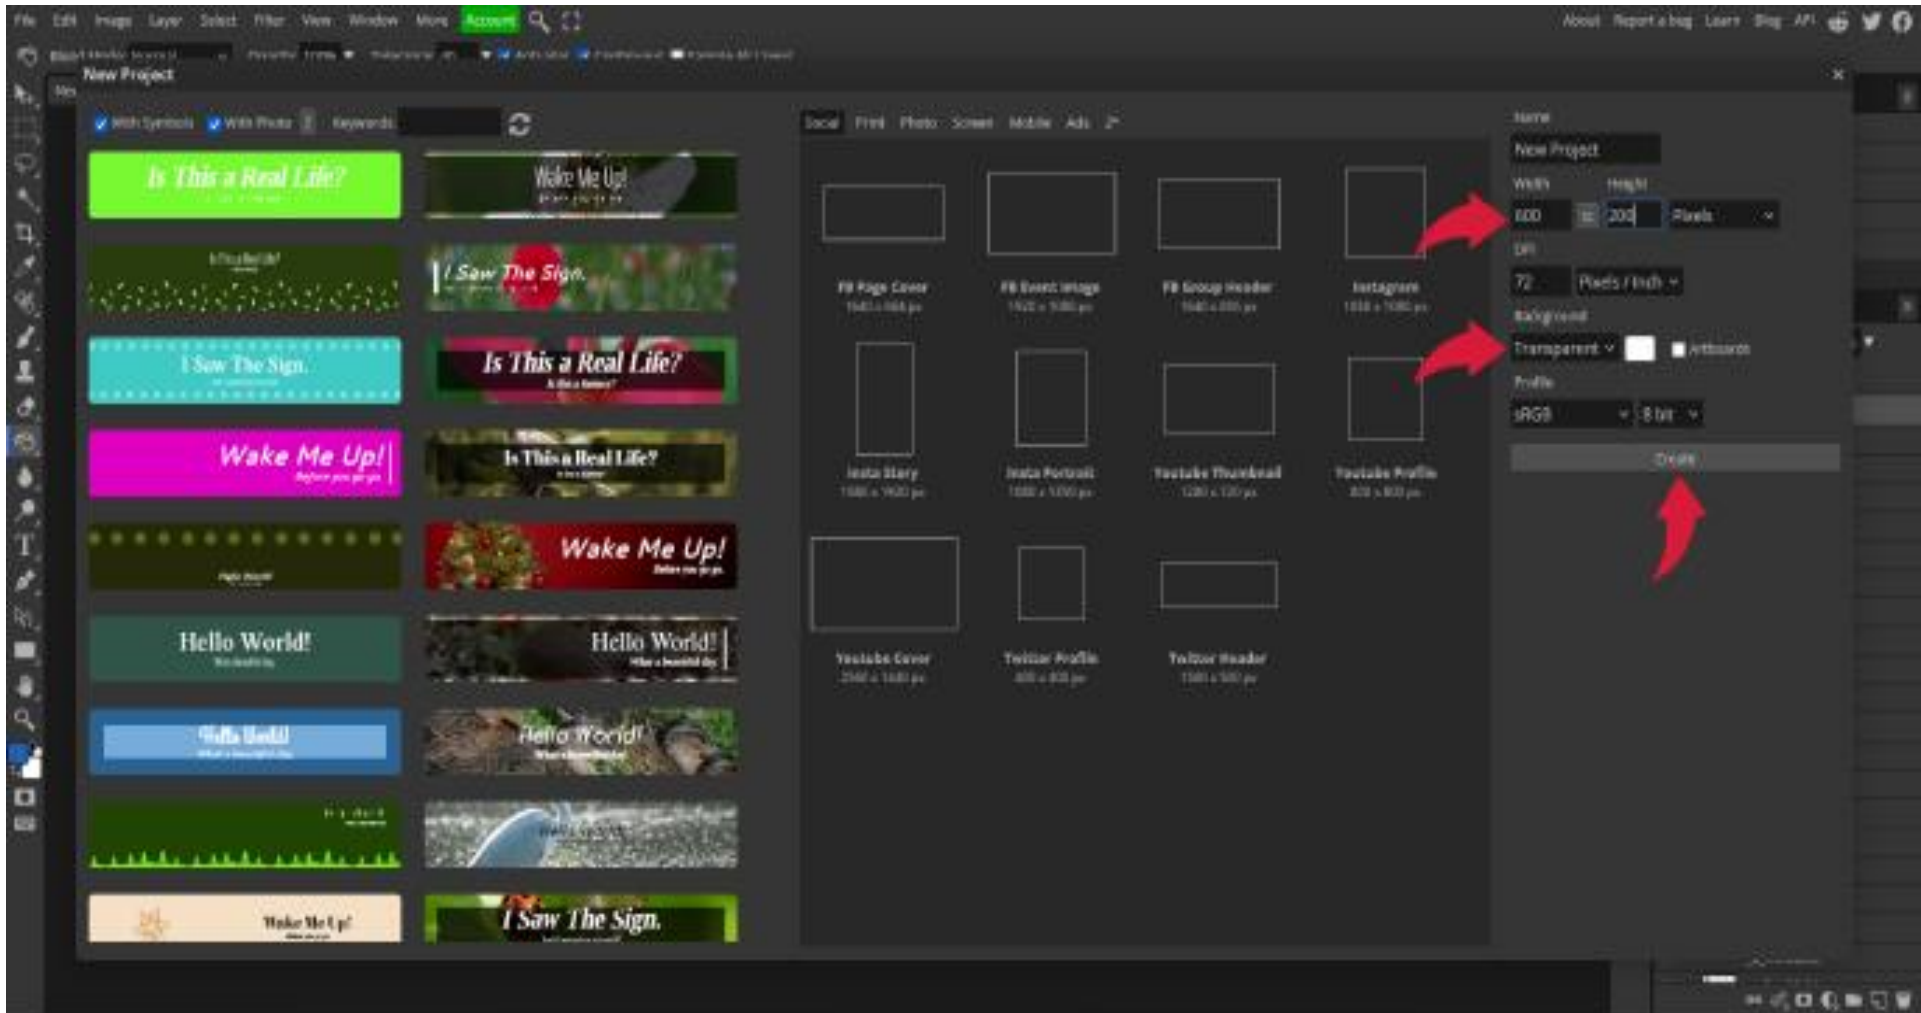

Step 6: Now it's time to create the name. Click on the 'File' tab on top left and from the drop down click on 'New'. Change the width to 600 px and the height to 200 px. Click on the background and choose 'Transparent'. Click on the 'OK' button.
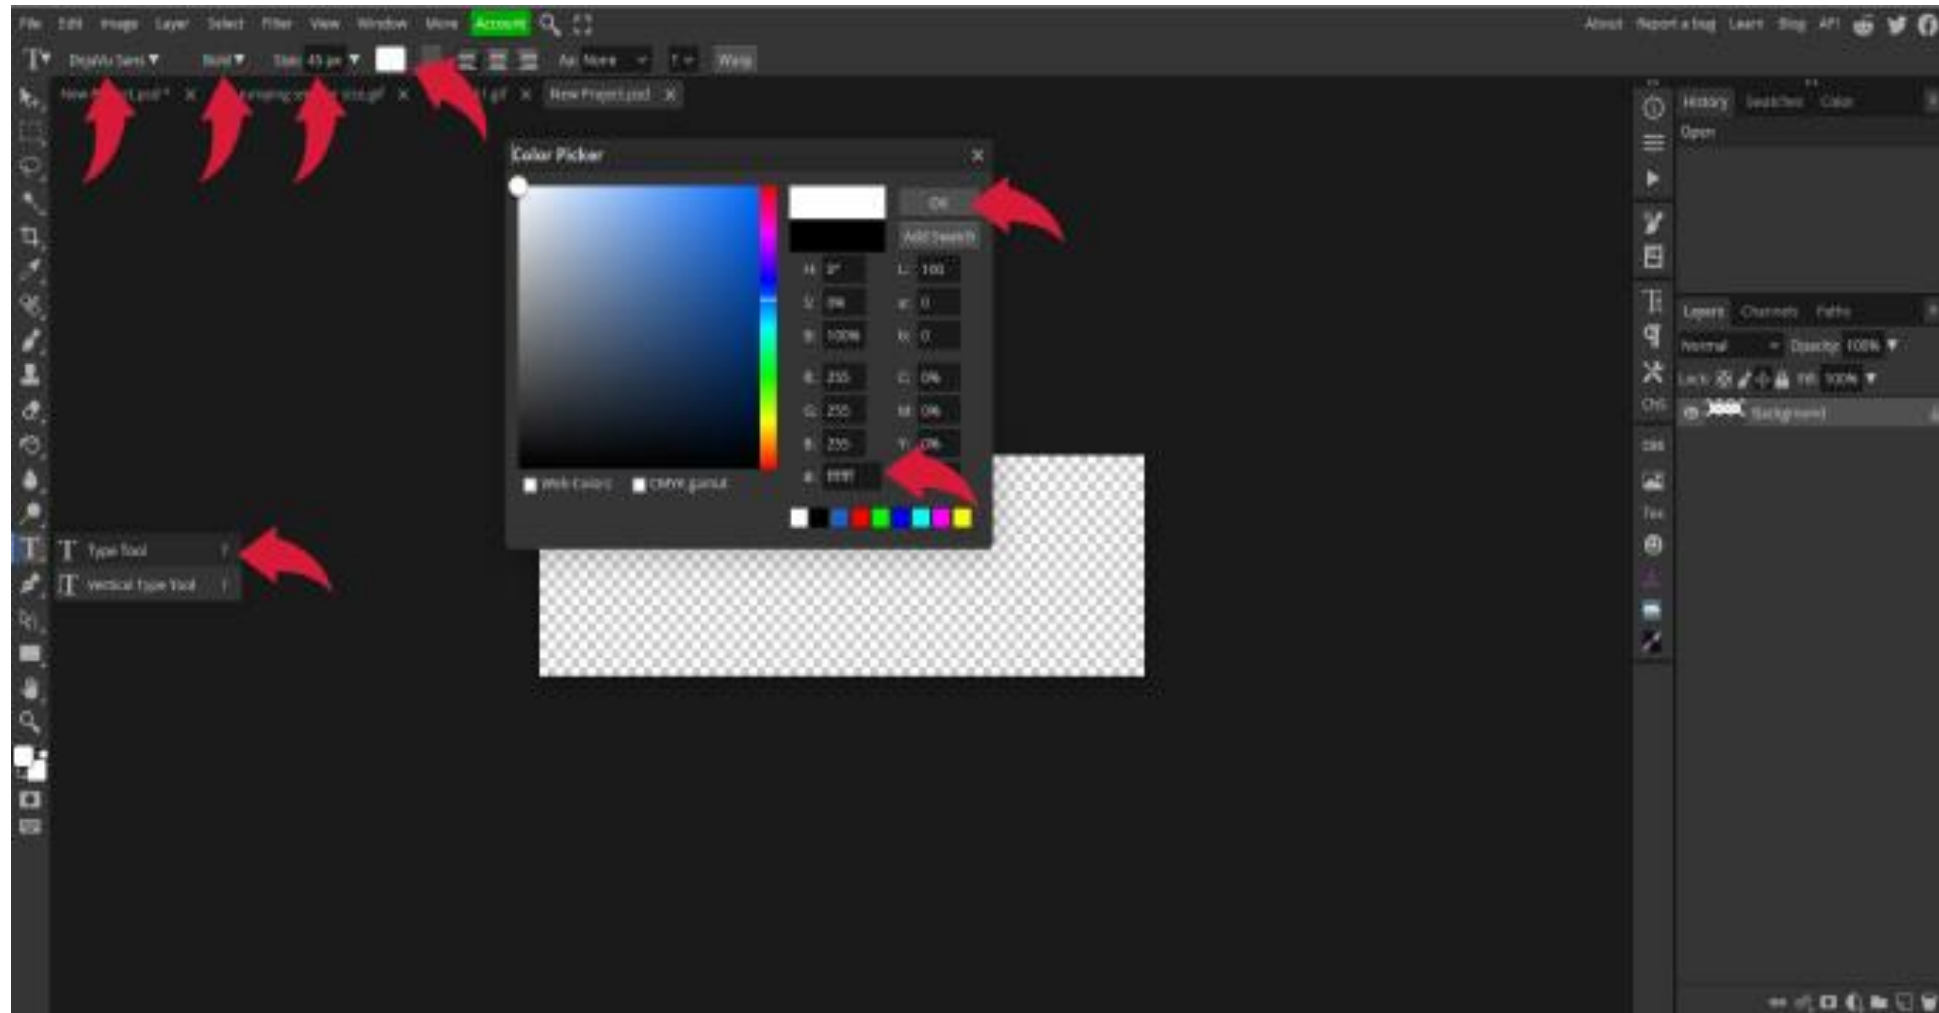

Step 8: Click on the 'T' tool on the left and from the drop-down box click on 'DejaVu Sans'. To the right of the font style click on 'Bold' and to the right of that click to type the size 45 px. Click on the color square on top and choose the white or type in the code 'ffffff'. Click on the 'OK' button.

Step 9: Go back to the layer on the right and right click on the right to bring up a stroke to add to the name. Click on the color box and from the pop-up box change the HTML code (Image above has wrong code, it should be '14238c'. Click on the 'OK' button and then click on the 'OK' button for the 'Stroke' (layer Style).
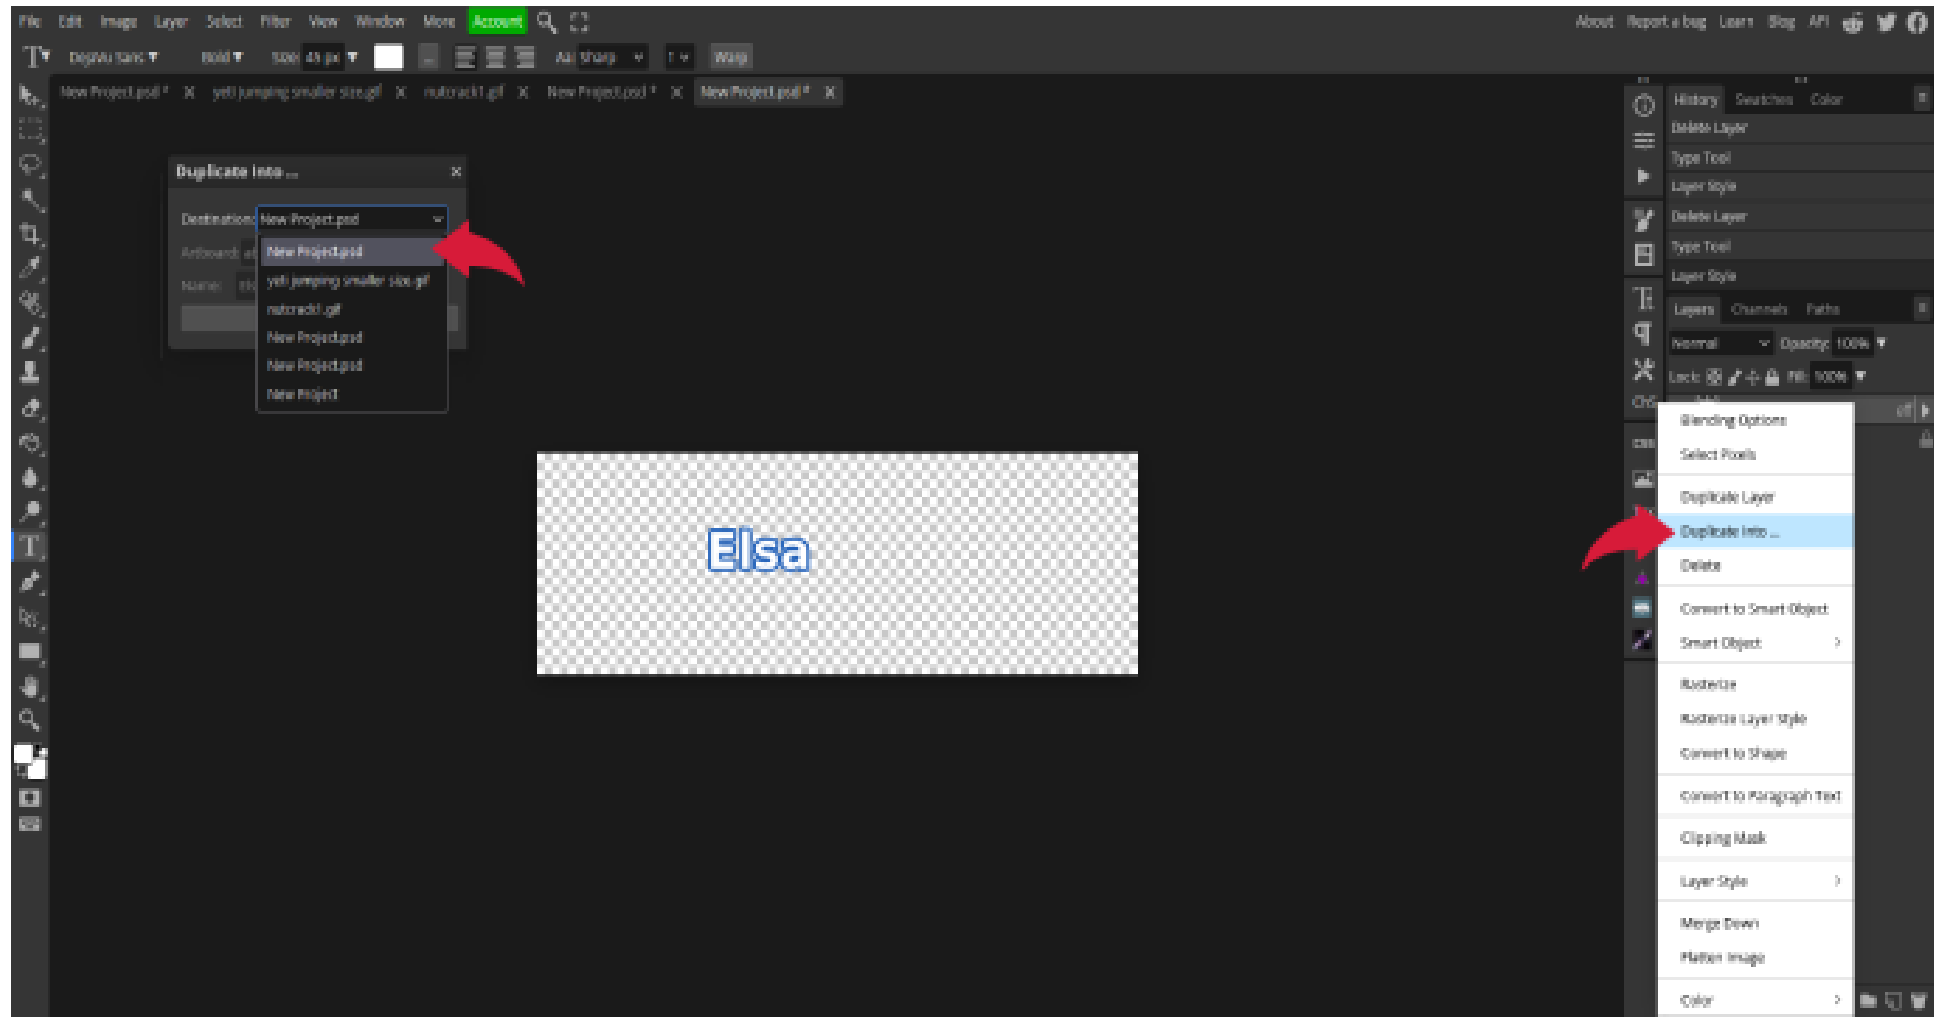

Step 10: Right click on the layer to the right and click on 'Duplicate Into'. On mobile, click on the 'Layer' tab and then click on 'Duplicate Into ...'. From the drop-down box click on the 'New Project' and click on the 'OK' button.
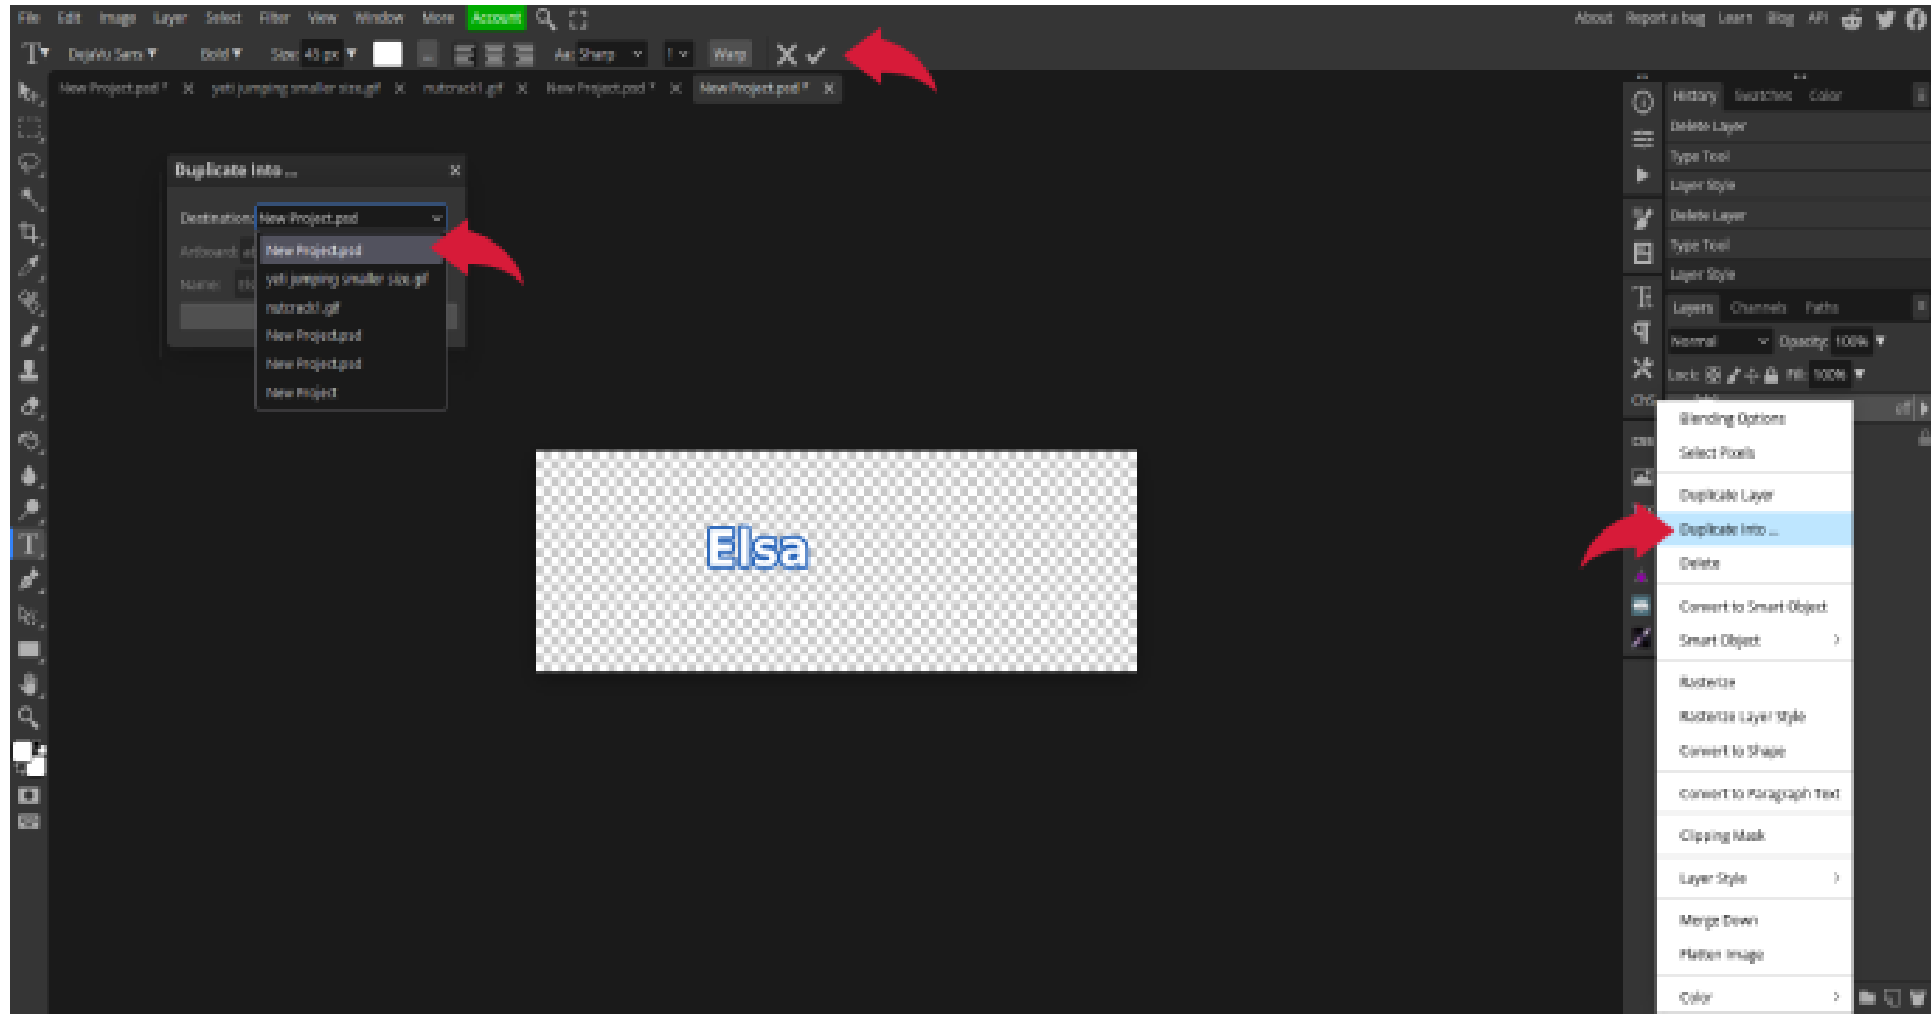

Step 11: Click on the check mark on top. Right click on the layer and click on 'Duplicate Into ...'. On mobile, click on the 'Layer' tab and then click on 'Duplicate Into ...'. From the drop-down box click on 'New Project'. Click on the OK button.
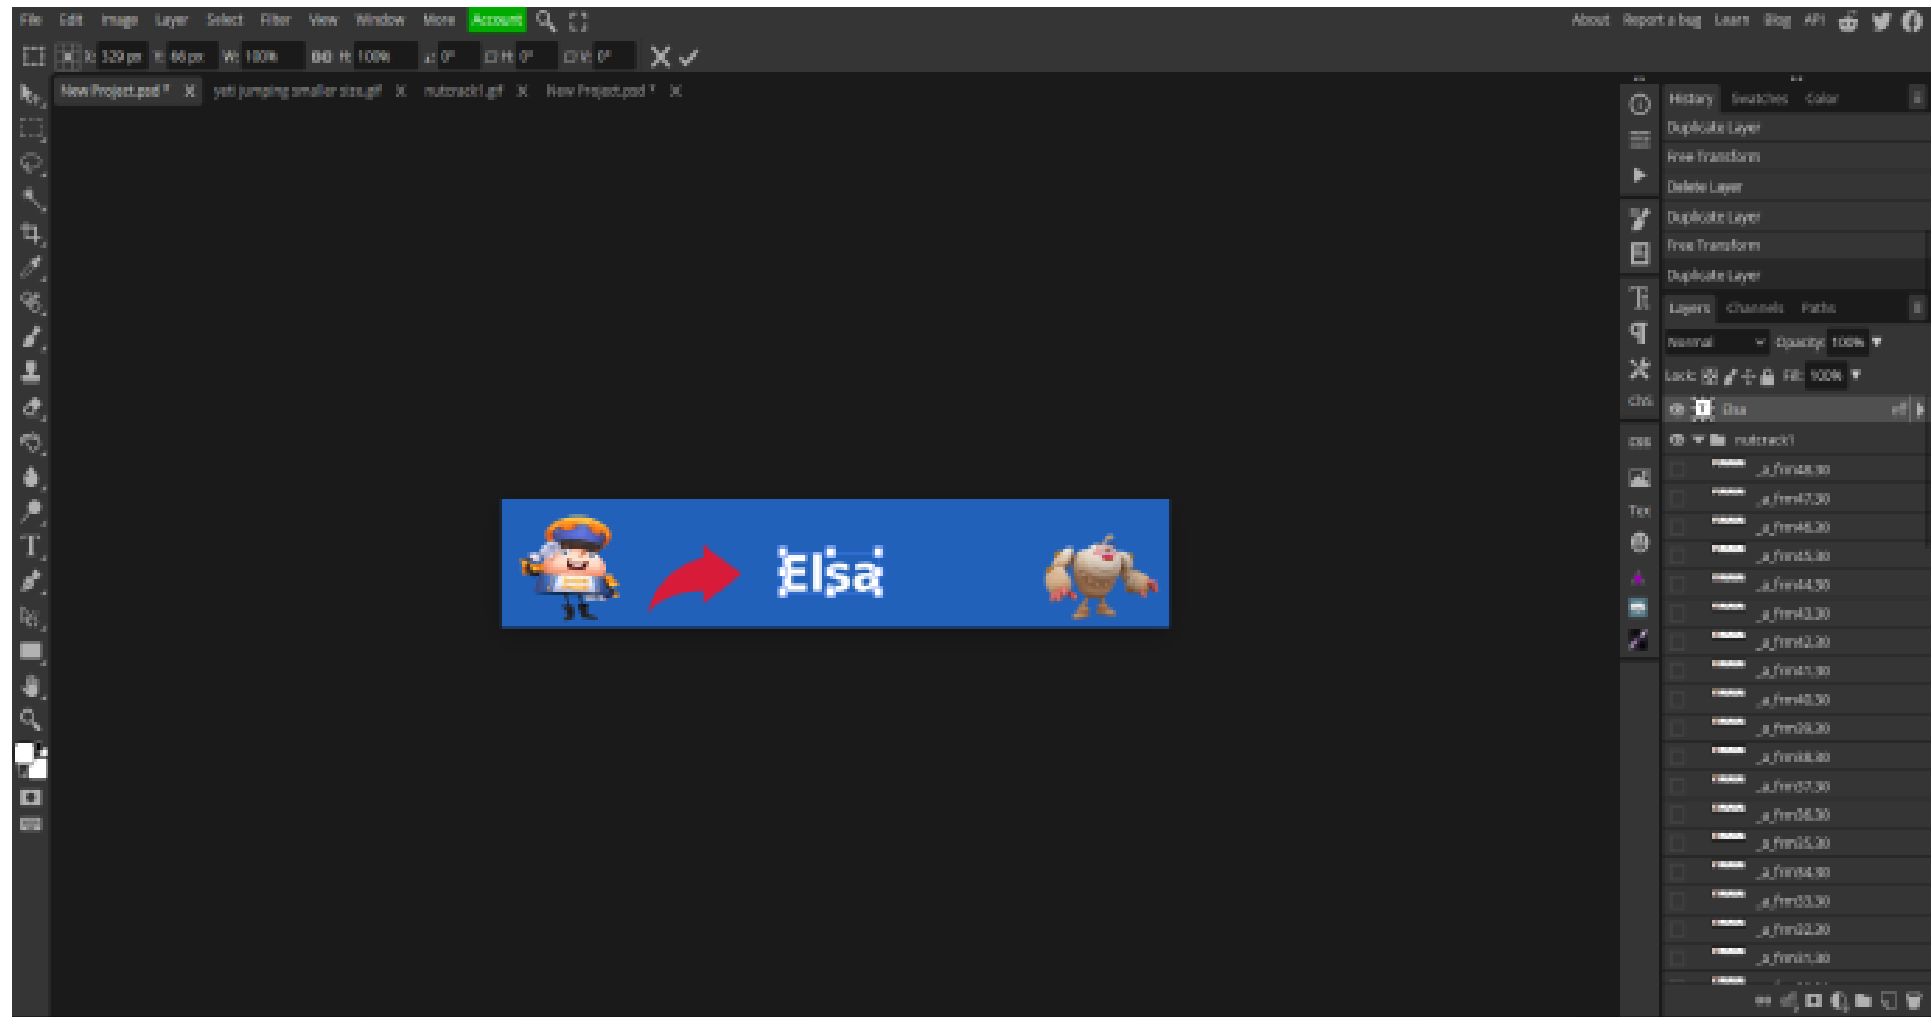

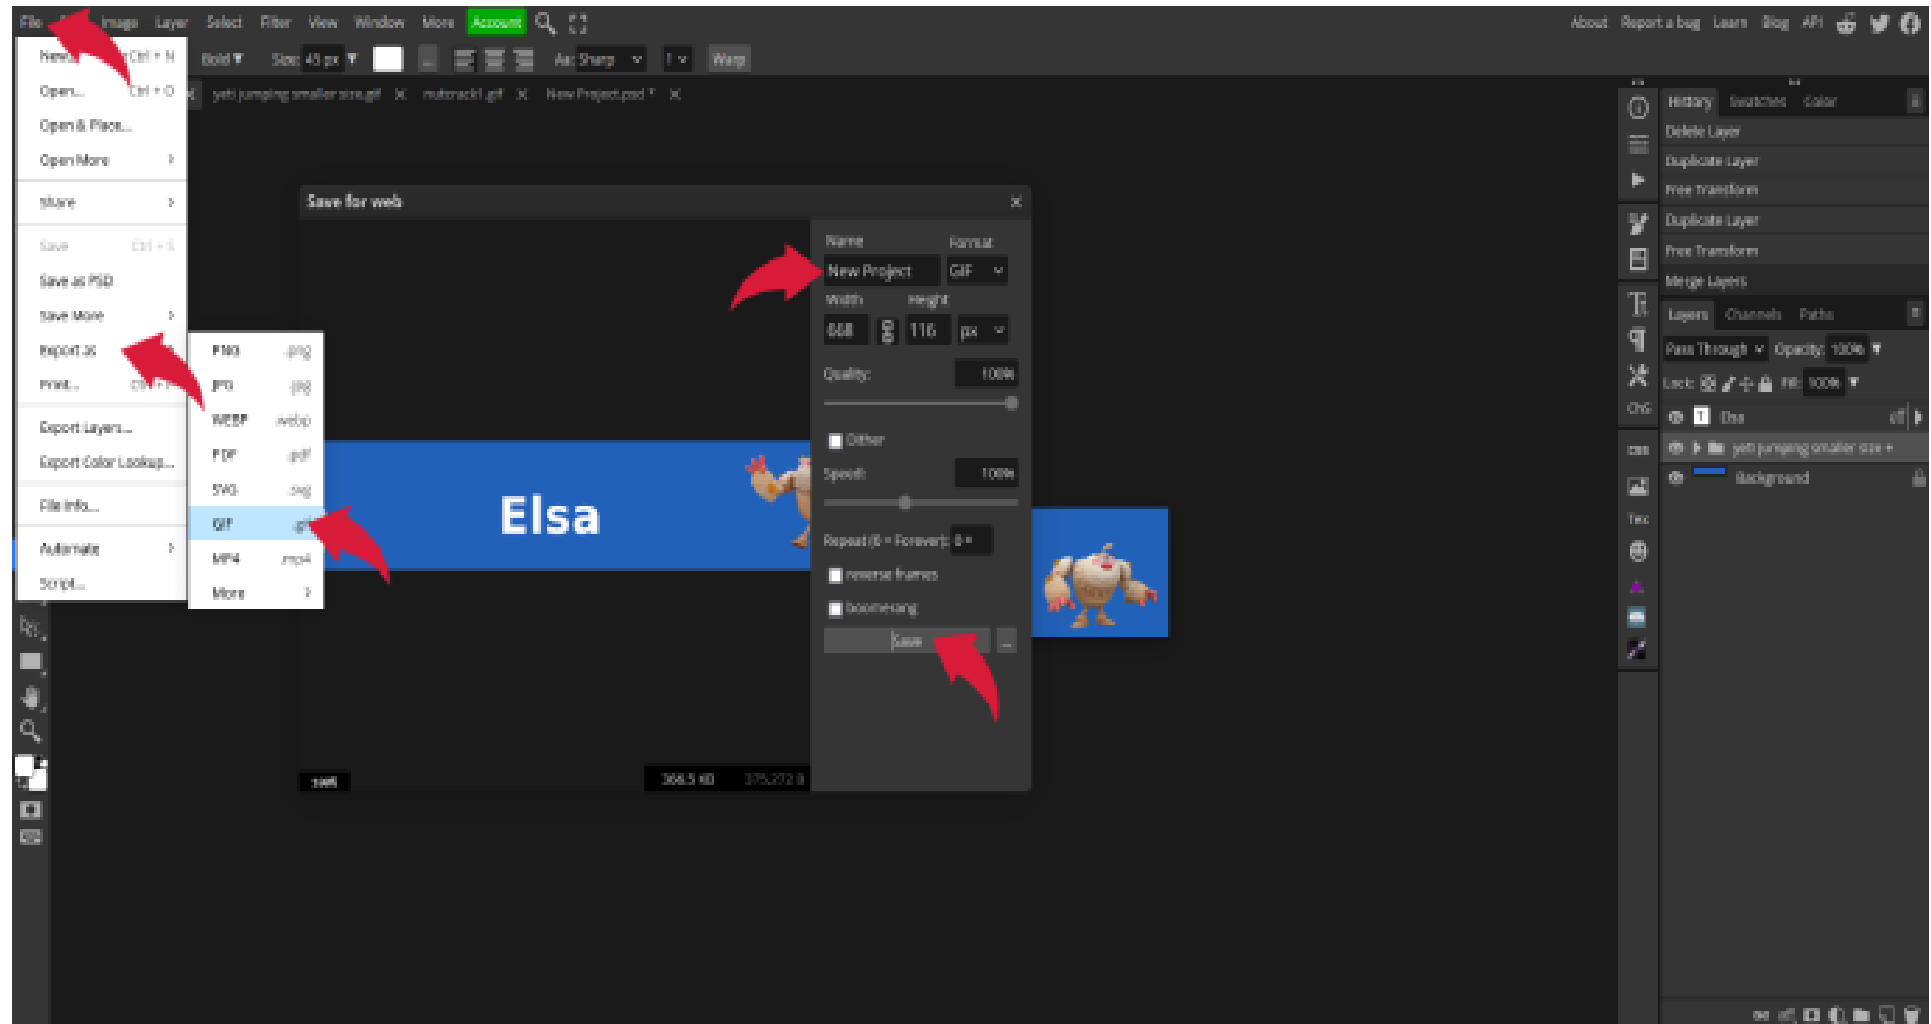

Step 12: CTRL + ALT + T on PC. On mobile click on the 'Layer' tab on top and from the drop-down click on 'Free Transform' and move your name in place.
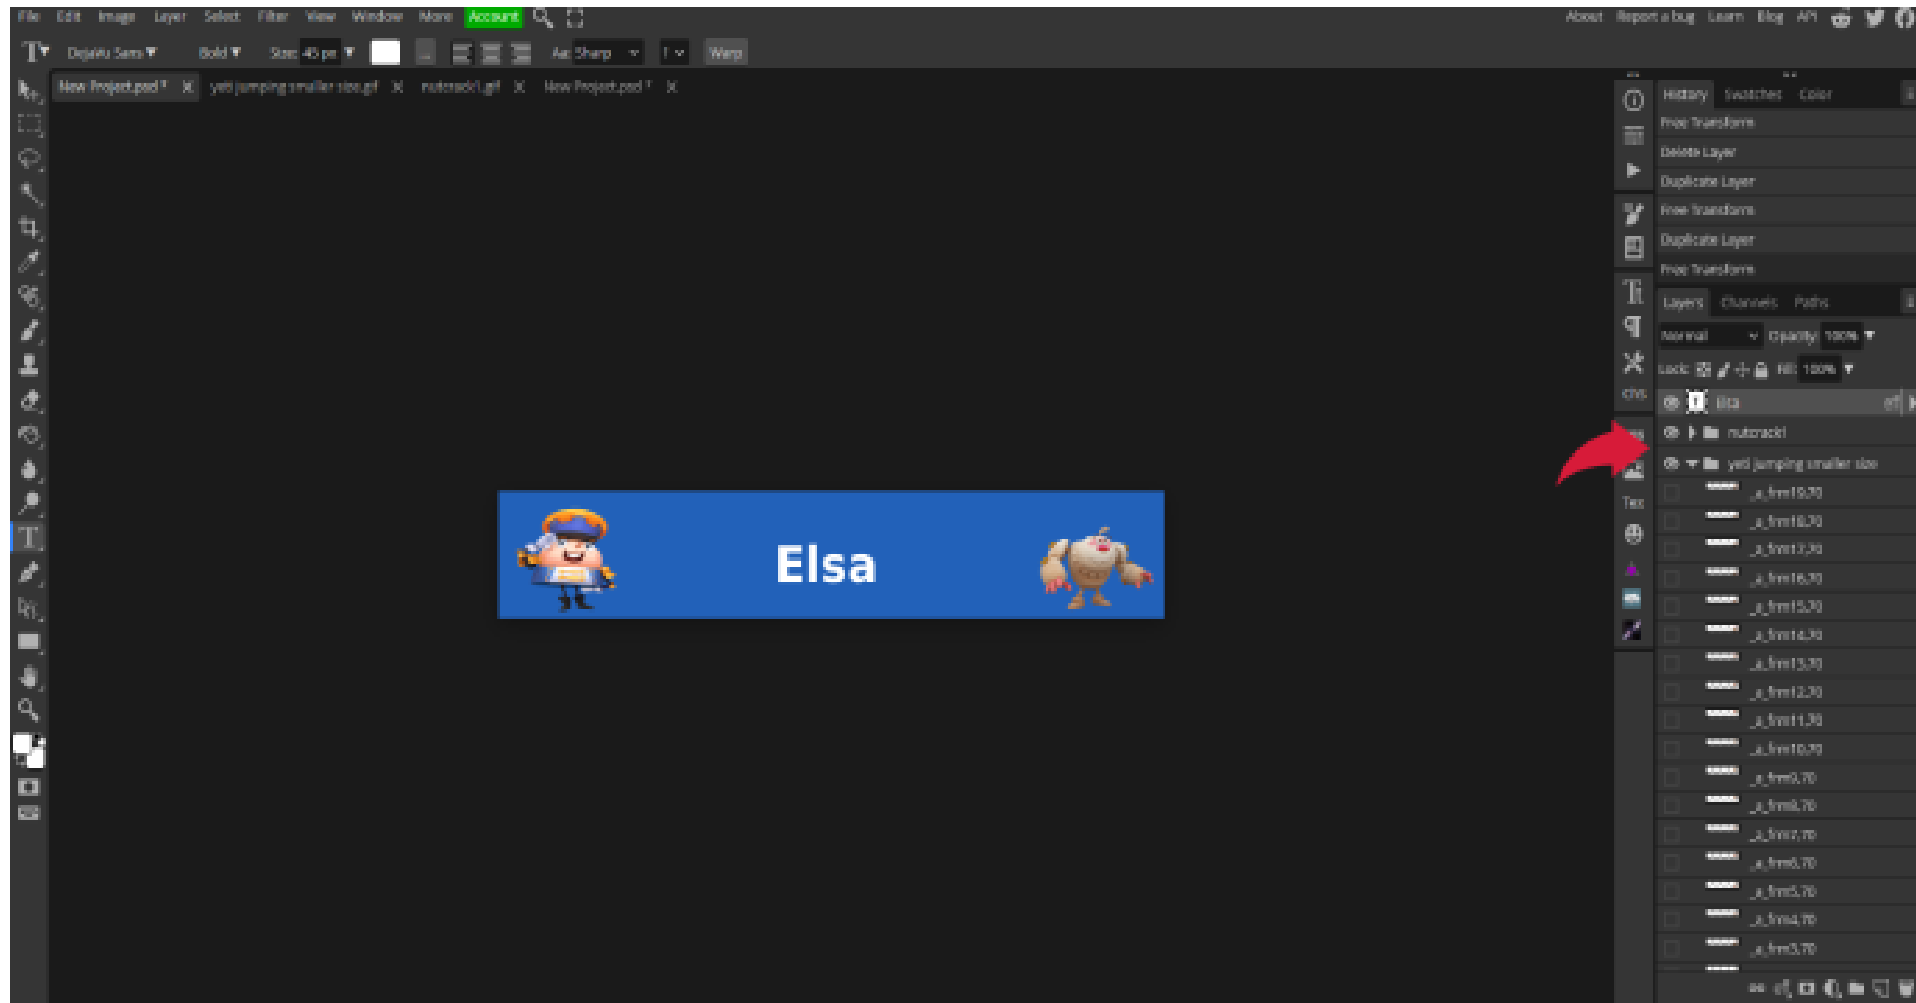

Step 13: Click on the Nutcracker layer and click on the arrow to closer the layers. Do the same with Yeti.
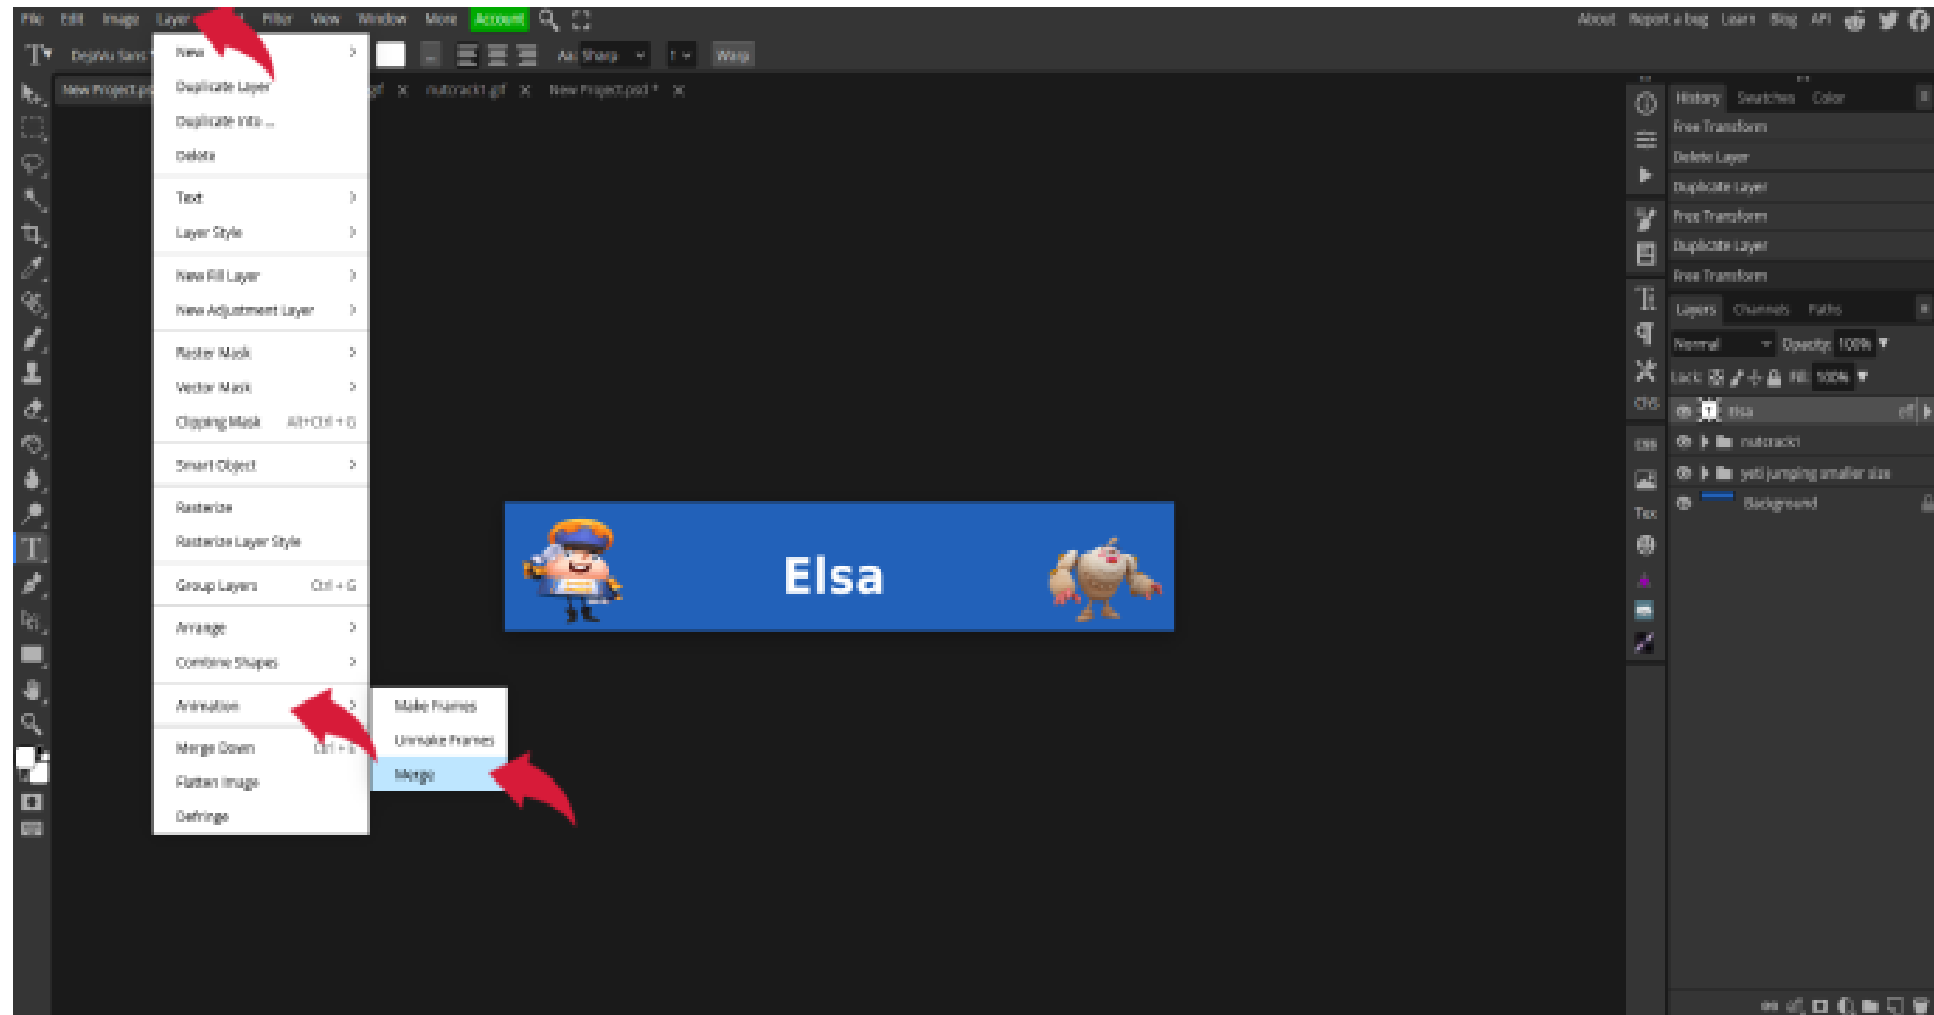

Step 14: Click on the 'Layer' tab on top. From the drop-down, click on 'Animate' and then click on 'Merge'.

Step 15: Time to save it. Click on the 'File' tab on drop. From the drop-down box click on 'Export As' and to the right click on 'GIF'. You should now see your signature animating. Type in the name box what you want to call this animation. Then click on the 'Save' button.

Elsa

You did it! Congratulations!
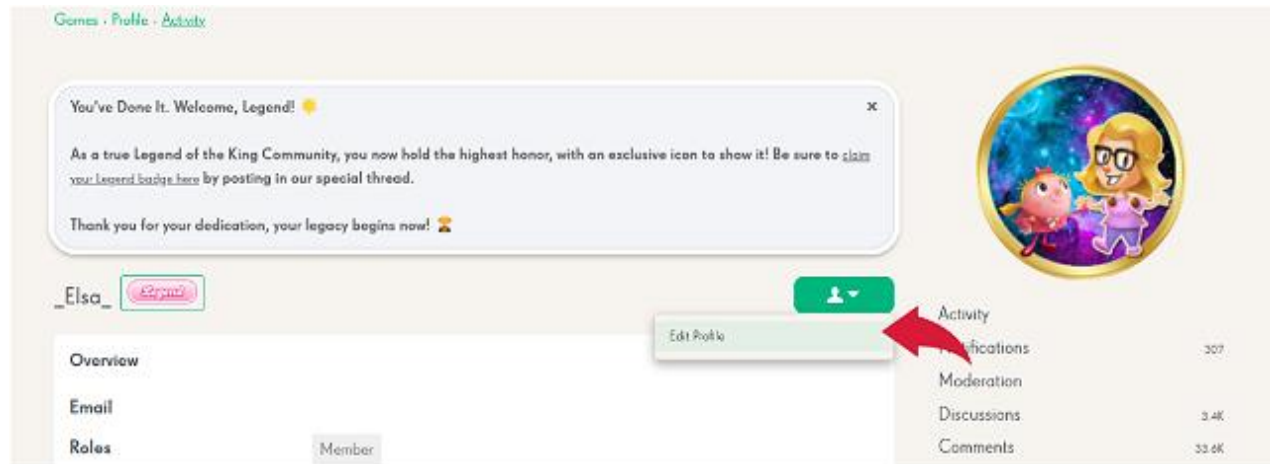

To add your signature, click on your profile picture on top. Click on the green button and click on 'Edit Profile'.
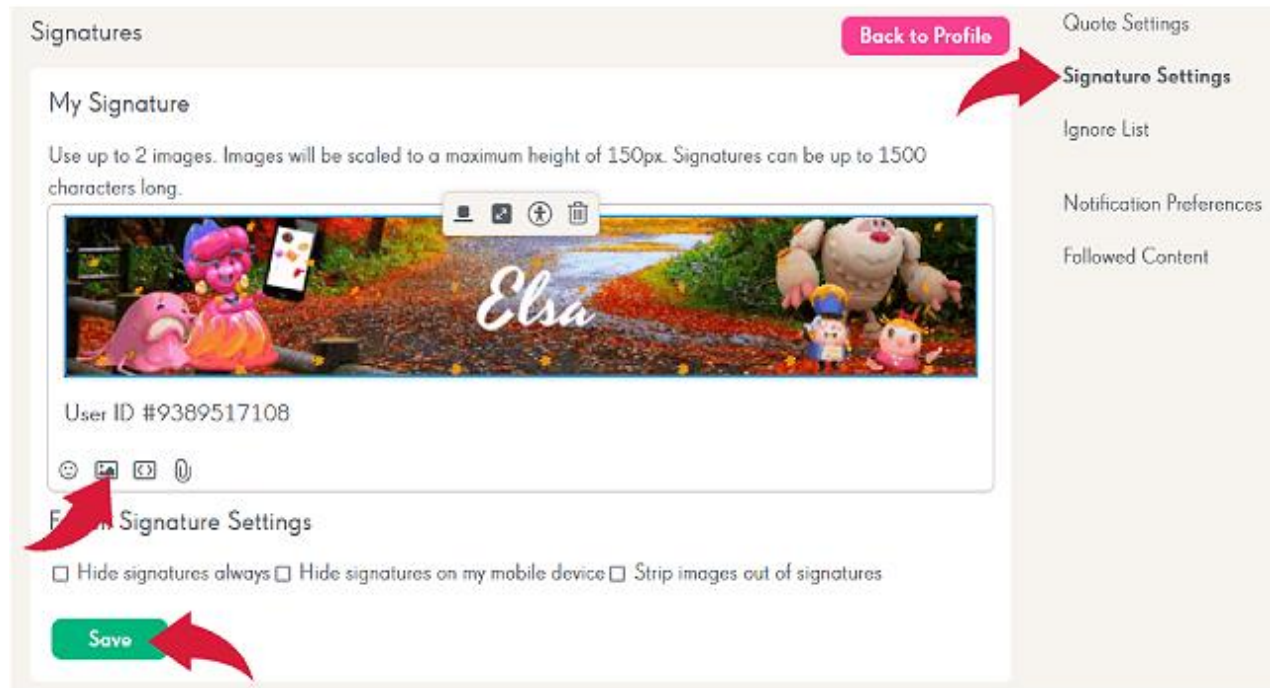

Click on the photo icon and it will open to where you saved the signature. You can add a comment below your signature but there is a limit to how much you can add. Click on the 'Save' button.
